IDEXX Web PACS 3.18 introduces:
Enhanced dental features and integration

Now with full-mouth view and custom options

Dental thumbnails open automatically in a full-mouth, dental-chart view.
Add, replace, and move images. Switch to a row view with a single click.

Click full-screen to see the largest possible view of a single image with no menus or browser tabs. Press **Escape** or click the arrows again to return to standard mode.

Display the next full-screen image with a single arrow-click .

Customize image thumbnails. Select thumbnail size, hide/show labels, and adjust the size of the thumbnail pane.

Use the Reference Image Library to compare your images with normal dental views.

IDEXX Web PACS* can connect to your dental imaging system through most leading PIMS.
Order images, view radiographs, capture charges, and save to the patient record seamlessly.

To learn more, click , select **Help**, then search for **Dental**.

Note: These options are not available at the basic subscription level. Contact an IDEXX consultant at 1-855-627-6573 for more information.
